## Rugged Interactive Way-Finding Displays (Indoor and Outdoor)

The **METu** Rugged Interactive Way-Finding Display Totem is designed for tough public areas as it is engineered and manufactured to handle all the bumps, knocks and spills that are part of busy public settings like malls, larger retailers, airports, campuses, sports arenas and convention centers. Equipped with a full high bright HD **42-inch and 47-inch** interactive display, the METu helps people look-up information, get directions, learn about offers and buy tickets.

The METu Interactive Way-Finding Display Totem can be custom branded and color-keyed to the end user's exacting specifications. With a Corning Gorilla Glass protective face, IP66 water proofing, and rugged structural materials, the METu Interactive Way-Finding Display Totems are sturdy and built to last while staying all beautiful.
